Anno XXIV - n. 96

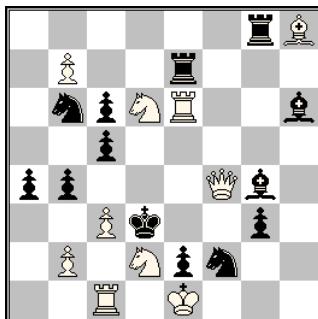

4°/2020 - October

Hanno collaborato a questo numero:

EDITORIALE

Welcome to HAUKE REDDMANN, KURT KELLER, MIROSLAV BILY for their first publication on these pages.

Siamo così giunti alla fine del 24° anno di vita di questa - spero - simpatica rivista. Ancora oggi arrivano nuovi compositori, come vedete qui sopra, che mai prima avevano pubblicato su BP. In prima pagina un problema trovato per caso, grazie a un nuovo amico, Luca Monti, che sta appassionandosi ai problemi, per ora risolvendo solo i ≠2, ma con intenzione di provare in futuro a comporre, anche se non è propriamente un giovanotto.

← Francesco Simoni, 1° Premio *L'Italia Scacchistica* 2003

Fairies n. 4468-4479 (Judge 2020: NN).

Note agli inediti (Fairy elements)

sh = Problema aiutomatto a serie (Serie helpmate/helpstalemate).
hs = helpselfmate.

- **Alphabetic Chess (Alphabétiques):** Each move of either side must be by the piece occupying the first square in the order of a1, a2, a3...b1, b2, b3...c1, c2, c3... etc., which is able to make a legal move. Castling is permitted if the King has the right to make a legal alphabetical move, provided the usual other rules for that move are obeyed.
- **Breton adverse:** When a piece is captured, another piece (of the same nature) of the captured side must also disappear (if there is one).
- **Take & Make:** After any capture, the capturing unit **must** make a move that could be made by the captured unit, and this move cannot be another capture.
- **Camel-Rider:** A Rider along a straight line on squares lying a Camel's move away from each other, e.g. a1-b4-c7.
- **Grasshopper:** Moves along Queen-lines over another unit of either colour to the square immediately beyond that unit. A capture may be made on arrival square, but the hurdle is not affected.
- **Kangaroo:** Moves along Queen-lines over two units of either colour to the square immediately beyond the further unit. A capture may be made on the arrival square, but the hurdles are not affected.
- **Rook-hopper:** Moves like a Grasshopper, but only on Rook-lines.

Three critical moves of heavy white pieces and overlap their light white figures. (Author)

Gli hs lunghi purtroppo richiedono troppo tempo per l'analisi con un programma risolutore. Anche questo splendito lavoro, all'occhio umano sembra corretto.

Award Best Problems Fairies section / HS section 2018

di A. Garofalo

Nella sezione Fairies vengono messi spesso problemi che meriterebbero un verdetto separato, come ad esempio i matti a Serie o ancor più, gli HelpSelfmate. Per casualità nel 2018 gli HS erano in numero sufficiente per meritarsi un loro verdetto. Perciò ho diviso i problemi originariamente pubblicati come fairies, separando gli HS. Qui di seguito potete vedere i due verdetti in questione.

Section Fairies

Come è facile capire, confrontare fra loro problemi con pezzi e condizioni fairy diversi è un'impresa letteralmente impossibile. Non c'è fra loro la necessaria omogeneità. Qui più che in qualsiasi verdetto entra in gioco il gusto del giudice, gusto circa la condizione usata o i pezzi usati. Spero di aver potuto applicare un minimo di obiettività.

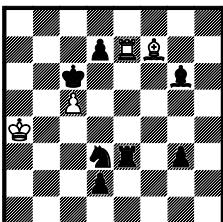

Hanno partecipato i seguenti autori:

Agostini Valerio	3940*,3989,4081
Bakesi György	4031,4087
Brunori Gabriele	3940*
Gatti Daniele	4033,4097,4038,4096

Transmuting Kings

1° Premio 3990. Pierre Tritten

1. $\hat{Q}e4 \hat{Q}xe4(\hat{Q}c8)+$ 2. $\hat{Q}e8 \hat{Q}xe8(\hat{Q}a8)\neq$ 1. $\hat{Q}e6 \hat{Q}xe6(\hat{Q}a8)+$ 2. $\hat{Q}e8 \hat{Q}xe8(\hat{Q}c8)\neq$
1. $\hat{Q}f3 \hat{Q}e1$ 2. $\hat{Q}xc5(\hat{Q}c2) \hat{Q}b3\neq(3. \hat{Q}e8??)$ 1. $\hat{Q}e1 \hat{Q}a5$ 2. $\hat{Q}c2 \hat{Q}b6\neq(3. \hat{Q}e8??)$

Fairy HOTF: two solutions where white officer open a line allowing Black occupy black King rebirth square, showing reciprocal ecto-batteries; two solutions with occupation of white King rebirth square and mate by white King (Author).

Un interessante HOTF, due coppie di soluzioni molto omogenee. Nelle prime due in B1 c'è un sacrificio nero per permettere al pezzo bianco la cattura con susseguente scacco, il quale viene parato dalla occupazione in B2 della casa di rinascita (e8); però l'altro pezzo bianco cattura in e8 e produce un doppio scacco imparabile. La posizione finale è uguale ma ci si arriva per vie diverse. L'altra coppia vede l'occupazione (bicolore) della casa e1, allo scopo di non permettere al Re nero di catturare il Re bianco quando gli fa il matto. Apparentemente c'è un pezzo bianco inutile in ognuna di queste due ultime soluzioni, ma non è così: i due pezzi a turno permettono al Re bianco di minacciare e quindi mattare in quanto proteggono la casa e8 da un pezzo nero. Un problema molto complesso che ben merita il primo premio.

2° Premio 3941. Václav Kotesovec

1. $\hat{Q}d4 \hat{Q}c2$ 2. $\hat{Q}d2 \hat{Q}xd2(\hat{Q}c2)$ 3. $\hat{Q}c1 \hat{Q}xc1(\hat{Q}d2)$ 4. $\hat{Q}c3 \hat{Q}xc2(\hat{Q}c1)==$
1. $\hat{Q}d2 \hat{Q}e2$ 2. $\hat{Q}c3 \hat{Q}c1$ 3. $\hat{Q}c2 \hat{Q}d1$ 4. $\hat{Q}d2 \hat{Q}xd2(\hat{Q}d1)==$
1. $\hat{Q}e3 \hat{Q}c2$ 2. $\hat{Q}g3 \hat{Q}d2$ 3. $\hat{Q}e1 \hat{Q}d1$ 4. $\hat{Q}f2 \hat{Q}e2==$

Un perfetto uso delle due condizioni, con triplo eco-camaleonte.

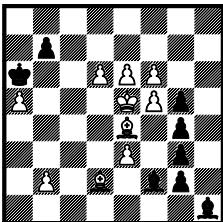

3° Premio 4090. L'ubos Kekely

1. $\hat{Q}e8$ 2. $e5$ 3. $\hat{Q}xe4$ 4. $\hat{Q}e6$ 5. $e4$ 6. $\hat{Q}xe3$ 7. $\hat{Q}c3$ 8. $e3$ 9. $e2$ 10. $e1=\hat{Q}$ 11. $\hat{Q}f2$ 12. $\hat{Q}xc5$ 13. $\hat{Q}d4$
14. $c5$ & 1. $\hat{Q}e4+\hat{Q}c6\neq$ Eccellente gioco del Grasshopper che prima cattura i Pedoni e4, e3 permettendo la promozione del $\hat{A}e7$ ad Alfiere, il quale deve poi catturare il $\hat{Q}c5$, perché questo impedisce la mossa del $\hat{A}c7$, il quale impedirebbe il matto se rimanesse nella sua posizione di partenza. Infine si piazza in d4 dove matterà. Una concatenazione di effetti davvero incredibile.

4° Premio 4089. L'ubos Kekely

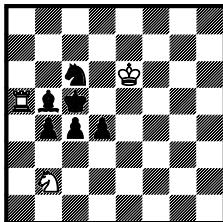

1. $bxa5$ 2. $a4$ 3. $a3$ 4. $axb2$ 5. $b1=\hat{Q}$ 6. $\hat{Q}a3$ 7. $\hat{Q}c4$ 8. $\hat{Q}xe5$ 9. $\hat{Q}c6$ 10. $\hat{Q}b4$ 11. $\hat{Q}xa2$ 12. $\hat{Q}h2$
13. $\hat{Q}g3$ 14. $\hat{Q}f4$ 15. $\hat{Q}e3$ 16. $\hat{Q}d2$ 17. $\hat{Q}c1$ & 1. $\hat{Q}e2+$ $dxe2\neq$ Un perfetto esempio sull'uso di questa condizione. Prima il $\hat{A}b6$ promuove per catturare i due pezzi - $\hat{Q}e6$ e poi $\hat{Q}a2$ - che impediscono la passeggiata del Re nero, poi lo stesso Re nero si pone nella casa dove, subito lo scacco, non può muoversi e pertanto deve parare col $\hat{A}d3$, che matta in quanto il Re bianco, che subisce lo scacco, non può "muovere" come il pedone medesimo e quindi è scacco matto.

Anticirce pinnings and check parryings (Authors).

Superlativo HelpSelfStalemate, perfetto sfruttamento della condizione Anticirce: il Nero inizia con uno scacco, per pararlo il Bianco mette un pezzo nella casa di rinascita della Donna nera; segue un secondo scacco - per rinascita e diretto - e di conseguenza una seconda parata occupando la casa di rinascita, con scacco al Re nero, che viene parata con l'ennesima occupazione della casa di rinascita, e quindi lo stallo. I due pezzi bianchi svolgono lo stesso ruolo ma in ordine invertito. Meritatissimo premio.

BP94 – Anticipazioni (Reports)

The problem nr. 4337 by Hans Nieuwhart, published in BP94, is fully anticipated by Zoran Gavrilovski, Liga problemista 1996, 2nd place (P0578018). Pointed out by Predrag Zuvic.

Ricostruzione

← Antonio Garofalo – (Ricostruzione 84, BP95) - *Scacco!* 1977

2R5/8/2NpPp2/3k1P2/KR2r3/1P1P4/3N1nB1/b3r3

#2 (10+7) C+

1. ♦c4? [2. ♦b5≠] A

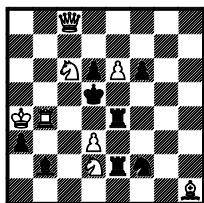

1... ♦d4 x 2. ♦e7≠ B ma 1... ♦xd3!

1. ♦f3! [2. ♦e7≠] B

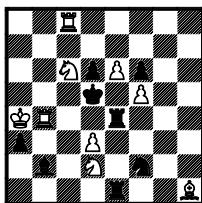

1... ♦xe6 y 2. ♦b5≠ A 1... ♦xb4+ 2. ♦xb4≠

Pseudo-le Grand

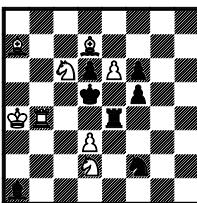

Miguel Uris

J. A. Coello Alonso

Hans Nieuwhart

Il lavoro di M. Uris supera l'originale (complimenti!) grazie a un tentativo supplementare.

1.d4? [2. ♦b5≠ A 2. ♦e7≠ B] 1... ♦d3 z 2. ♦e7≠ B ma 1... ♦xd4! x

1. ♦c4? [2. ♦b5≠] A 1... ♦d4 x 2. ♦e7≠ B 1... ♦c5 a 2. ♦b5≠ A ma 1... ♦xd3! z

1. ♦f3! [2. ♦e7≠] B 1... ♦xe6 y 2. ♦b5≠ A 1... ♦c5 a 2. ♦e7≠ B 1... ♦xb4+ 2. ♦xb4≠

Zappas semplice, Pseudo-Le Grand, Arnhem, Matti cambiati.

Il lavoro di José Antonio Coello Alonso mostra una lieve economizzazione, i pezzi sono 9+8 rispetto all'originale che è 10+7. Molto bravi entrambi, non era un lavoro facile da ricostruire.

Mentre il terzo partecipante H. Nieuwhart ha inviato una posizione errata, dove il tentativo previsto: 1. ♦c4 [2. ♦e7, ♦b5≠] 1... ♦xe6 2. ♦b5≠ 1... ♦xd3, ♦d4 2. ♦e7≠ ma 1... ♦xc4! non è conforme alla richiesta.

Ricostruzione n. 85 - Ricostruire un problema #2 che abbia la seguente soluzione:

1. ♦a8! [2. ♦d8≠]

1... ♦xh5 2. ♦xf8≠ 1... ♦g6+ 2. ♦xg6≠ 1... ♦f7 2. ♦hf5≠ 1... ♦~f 2. ♦xe8≠ 1... ♦f7 2. ♦g6≠
